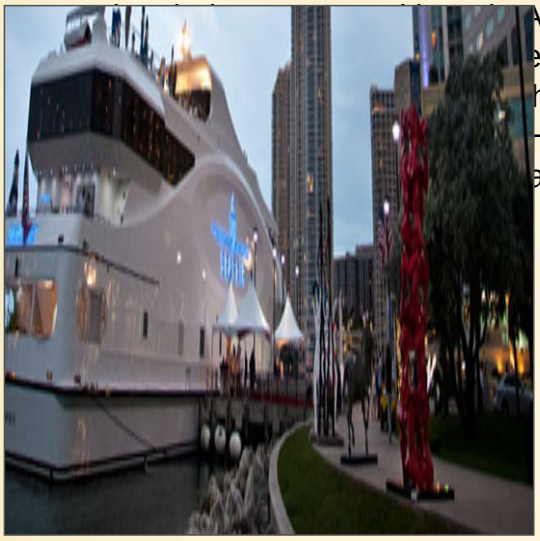
MIA Miami International Art Fair

400 SE 2nd Ave, Miami, United States

SeaFair is the world's first mobile megayacht venue and one of the ten largest privately owned yacht in the United States. Groundbreaking in scale, ingenuity and style, the yacht - which remains dockside during each event - pairs international fine art, jewelry and collectables with harbor view dining and special events in cities along the eastern seaboard. The $40M purpose built yacht was designed by internationally acclaimed yacht designer Luiz De Basto. At 228 feet and 2800 international tons, it is the largest ship built for commercial operation in the Intracoastal Waterway and requires a draft of only 6.5 feet allowing it to dock at small yacht facilities in central city locations rather than use commercial ports. Deck One features a formal entry, ten individual exhibit spaces and a coffee bar Deck Two features twelve exhibit spaces and the Luxe Lounge, an open-air champagne and caviar lounge on the aft deck Deck Three features six exhibit spaces and Sapore', our formal glass-walled restaurant The Sky Deck (Deck Four) contains Bistro360, an informal open-air restaurant and Bar360, a cocktail reception area ABOUT THE ORGANIZERS This creative concept was developed by



AE) - a leader in organizing leading prestigious art fairs
eered more international fine art fairs than any global fair
